PROFESSIONAL SUMMARY

MERN Stack Developer with hands-on industry experience building scalable web applications using React.js, Next.js, Node.js, Express.js, and MongoDB. Skilled in RESTful APIs, performance optimization, and clean architecture. Passionate about problem-solving and continuous growth in full-stack development.

TECHNICAL SKILLS

Frontend: React.js, Next.js, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, Bootstrap 5, MUI

Backend: Node.js, Express.js, RESTful API Development

Database: MongoDB, SQL

Programming: JavaScript, Python (Pandas, NumPy), C++

Tools: Git, GitHub, Postman, VS Code

WORK EXPERIENCE

Junior Developer – Zemalt Pvt Ltd

Sept 2025 – Present

- Contributed to full-stack development using MERN stack technologies.
- Developed and optimized RESTful APIs ensuring secure and efficient data exchange.
- Implemented Next.js server-side rendering for performance optimization.
- Collaborated in live production projects, delivering scalable and user-focused solutions.

Web Development Intern – Zemalt Pvt Ltd

July 2025 – Sept 2025

- Developed dynamic web applications using HTML, CSS, JavaScript, React.js, Node.js, Express.js, and MongoDB.
- Built responsive and user-friendly interfaces using Tailwind CSS.
- Designed and implemented RESTful APIs for seamless frontend-backend integration.
- Applied best practices in debugging, performance optimization, and modular code architecture.

PROJECTS

HRMS (Human Resource Management System)

- Developed a full-stack HR management system to handle employee records, attendance tracking, and performance monitoring.
- Designed 20+ RESTful APIs using Node.js and Express.js with MongoDB integration.
- Built dynamic dashboards using React.js and MUI. Implemented modular architecture ensuring scalability and maintainability.

POS Billing System

- Built a scalable Point-of-Sale system supporting billing, inventory management, and transaction tracking.
- Designed structured database schemas in MongoDB for real-time inventory updates.
- Developed responsive UI using React.js and MUI. Implemented optimized backend APIs ensuring smooth transaction processing.

Shoeman E-Commerce Website

- Designed and developed a responsive e-commerce web interface with structured product listings.
- Implemented dynamic layouts for categories including New Arrivals, Best Sellers, Formal, and Casual.

- Built backend support using Node.js, Express.js, and MongoDB with modular architecture.

Facial Recognition Attendance System

- Developed an AI-powered attendance system using Python and OpenCV with Haar Cascade for real-time face detection.
- Designed an interactive GUI using Tkinter for student registration and attendance management.
- Integrated Pandas and NumPy for structured data processing and automated report generation. Improved attendance accuracy and reduced manual workload through automated facial recognition.

Appointment Management System

- Developed a responsive web app for booking and managing doctor appointments.
- Built frontend interfaces with React.js and MUI, and backend APIs with Node.js, Express.js, and MongoDB.
- Focused on usability, performance, and modular architecture.

Limo Taxi Car Booking (Frontend)

- Developed a responsive and interactive frontend for a car booking platform.
- Implemented UI components for ride selection, booking forms, and navigation using React.js.
- Focused on user experience and mobile responsiveness for seamless booking workflows.

EDUCATION

BS - Computer Science 7th Semester CGPA: 3.91	Expected Graduation: 12/2026
Superior University, Lahore, Pakistan	
Intermediate	05/2021
Punjab Group of Colleges, Lahore	
Matriculation	04/2019
Govt Model Girls High School, Lahore	

Certifications

- Internship Certificate – Zemalt Pvt Ltd (09/2025)
- Introduction to SQL – SoloLearn (12/2024)
- Leadership and Management (09/2023)
